POWER SOLUTIONS

SMART VOLT BANK

MAKE YOUR ENERGY
GENERATION SMARTER
WITH THE WERNICK®
SMART **VOLT BANK**

REDUCE
FUEL COSTS

REDUCE
NOISE LEVELS

REDUCE
CO₂ EMISSIONS

MAINTAIN
SECURITY

The **VOLT BANK** forms an intelligent system with your generators. It receives charge from the battery during the day, then at night the system switches to the **VOLT BANK** to run lights, security cameras and other appliances.

By not running your generator overnight, you reduce your emissions, noise levels and fuel costs.

Based on a **40kVA** generator running at **20% load @ 3.1 litres per hour**
x **12 hours**

x **7 days** per week
= **260 litres** per week

At current fuel price of £0.89p per litre
= **£232.76 saving per week**
